All sidewalks, walkways, and exit doors around occupied buildings must be cleared and salted. All walkways/paths must be cleared wide enough to accommodate wheelchairs. Detailed Site maps indicating all required areas for plowing / clearing / ice control, including parking lots, roadways, sidewalks, and building entrances will be provided to all vendors who attend the mandatory site visit.

To have accessibility, snow removal shall automatically commence at the accumulation of 3 inches of snow at the contracted site. All sites must be cleared of accumulated or drifting snow of 3 inches or more at all times.

Snow removal and ice control services detailed in the Scope of Work will be paid by one seasonal price, spread out over six (6) equal installments as further detailed in **Section II. Accounting**.

### **I. DETAILED SPECIFICATIONS:**

#### **A. Snow Removal Services**

1. Snow removal shall automatically commence at the accumulation of 3 inches of snow at the contracted site. It is the Contractor's sole responsibility to ensure they are aware of when the site has accumulated 3 inches of snow. Should the Contractor not arrive upon 3 inches of snow accumulation and OPWDD calls, the Contractor would need to be onsite as soon as possible but no later than one (1) hour of such notice.
2. For any major snow event, the FLDDSOO Business Office may request additional snow clearing service. Contractor must begin plowing snow preferably within one (1) hour, but no later than two (2) hours of the request.
3. The Contractor will use equipment large enough to clear the parking areas and to push snowbanks back when needed to maintain visibility.
4. Snow shall not be pushed or stored against building walls, fences, vehicles, exit doors, trees/shrubbery, and garage doors. Snow shall not block any means of egress such as stairs, ramps, fire escapes, and exits. Snow accumulation around fire hydrants, standpipe connections, utility service equipment, or dumpsters must be cleared.

Additionally, snow piles shall not exceed three feet in height around any intersection or turn.

5. The Contractor is required to remove snow on all walkways, egress paths, steps, generator access areas, dumpster areas, fire hydrants, fire exits, fuel delivery paths, mailboxes, and approaches to mailboxes. An area no less than 36 inches wide must be cleared for all walkways and paths to accommodate wheelchairs.

## **B. De-Icing Services**

1. Contractor must be able to provide ice control services on a 24 hour per day, seven days per week basis. This includes sleet and freezing rain occurrences as well as during snowfall events.
2. Ice control for sidewalks, walkways, roadways and parking areas will be accomplished by the application of contractor supplied de-icer. De-icer will be applied at rates and densities in line with industry standards and sufficient to maintain all affected areas, so ice buildup is minimized to avoid potentially slippery conditions.
3. De-icer application must follow every plowing to bare surface.
4. At temperatures below 15 degrees Fahrenheit, abrasives such as sand, provided by the Contractor, may be added to enhance traction.
5. De-icer, as supplied by the Contractor, is to be used on cement, wood, or other decking surfaces. It is to be spread on all walkways, egress paths, steps, generator access areas, around the dumpsters, fire hydrants, fire exits, fuel delivery paths, mailboxes, and approaches to mailboxes.
6. The contractor must have vehicles of suitable size equipped with de-icer spreaders and a pay loader or other similar equipment capable of moving snow piles as needed. The Contractor will also be required to supply equipment to load bulk de-icer in its de-icer spreading equipment.
7. Contractor shall supply all appropriate Material Safety Data Sheets (MSDS) to FLDDSOO Plant Supervisor or designee.

## **C. Additional Requirements & Information**

1. The contractor must respond to FLDDSOO Business Office requests for additional plowing and ice control application and be on site preferably within one (1) hour, but no later than two (2) hours, of such a request. The Contractor will be required to provide the FLDDSOO Business Office with a 24-hour, live response emergency contact number. OPWDD must be notified immediately of any phone number changes.

## Invitation for Bid

2. In the event the Contractor fails to remove snow/ice and OPWDD is required to procure services from another vendor, the Contractor may be held liable for any costs over and above the contractual price. In such a situation, the additional cost for these services will be billed to the Contractor or payment will be reduced for the additional cost incurred.
3. Some Contractor equipment may be stored on premises at a mutually agreed to location on campus, but OPWDD will not be responsible for damage caused to the Contractor's equipment during the course of this contract.
4. Contractor shall cooperate with facility administrators and personnel and will comply with safety and security requirements as imposed by the Facility.
5. Suitable means (mobile phone, pager, answering service, etc.) shall be employed to allow facility authorities to contact a responsible person who can act on behalf of the Contractor at any time during the subject period.
6. The Contractor's employees will adhere to all policies and regulations of OPWDD, including but not limited to smoking, parking, etc.
7. The Contractor may elect to stake snow removal boundaries. The Contractor must obtain FLDDSOO's approval for all stake locations.
8. Contractor is to adhere to local/state noise control ordinances/laws and is responsible to follow all State, local, and municipal codes regarding the plowing of snow from OPWDD property and roadways. Contractor must possess and provide, at no cost to the State, appropriate licenses and permits associated with the provision of snow and ice control services.
9. Contractor must use sufficient size plows and have commercial quality salt/sand/calcium chloride spreading equipment to remove snow and ice from driveways and parking lots. Manually broadcast spreading with a shovel from the bed of a pick-up truck does not provide enough coverage to driveways and parking lots. Contractor shall have adequate staff and equipment to accomplish the snow removal and ice control services without delay. OPWDD reserves the right to request detailed listings of equipment, staffing, service routes, etc.

**D. Contractor Damages**

1. Only qualified operators and proper equipment will be used along with special efforts to prevent abuse and damage to surfaces of paved roads, walks, curbs, barriers, landscape effects, and grass areas. The Contractor shall be responsible for the repair of all damage to property, landscape, walkways, or any structures of the State or neighboring properties caused by the contractor's employees or equipment. The

Contractor must notify the facility manager or designee immediately of an event causing damage to the property.

2. The Contractor shall be responsible for, and will be notified by OPWDD of, all damage to buildings, curbing, walkways, fences, signs, trees, shrubbery, etc. as it is discovered and until the end of the snow season. At the end of the snow season, the Contractor shall be solely and wholly financially liable for any reported damage and shall comply with the instruction of the Plant Superintendent, Facility Manager, or designee in returning the property to its pre-season condition.
3. The Contractor must complete all damage repairs by April 30th of the calendar year. If the repairs are not completed by that time, OPWDD may find an alternative Contractor to complete the repairs. The cost for these repairs will be billed to the Contractor that caused the damage or reduce payment for the total cost incurred.
4. If Contractor causes damage to a staff or State-owned vehicle, the Contractor must notify the Facility Manager or designee immediately. Contractor will be responsible to report the damage to their private insurance company and exchange insurance information with the staff person if it was a personal vehicle.
